DRY ERASE WALL CALENDAR

KEEP YOUR LIFE IN PERFECT ORDER WITH THIS BOLD CALENDAR

Create a decorative showpiece on your wall to keep track of appointments, daily tasks and special events. With Rust-Oleum Dry Erase Paint, you can convert an average wall into a functional calendar.

ITEMS

- Drop cloth
- Painter's tape
- Level
- Foam roller (1/4" to 3/8" nap) and frame
- Roller tray
- 1 kit of Rust-Oleum Dry Erase paint

STEPS

1. **PREPARE:** Cover nearby items with drop cloths to protect from paint splatter. Clean all surfaces thoroughly with soap and water. Use painter's tape and a level to create a grid for your calendar.
2. **PAINT:** Stir part A and part B separately. Pour part A into part B and mix together. Begin painting immediately. Use a foam roller to apply Rust-Oleum Dry Erase paint to the wall. Use light, even strokes to ensure a smooth finish. Wait 10-15 minutes then apply a second coat. Repeat a third time on darker surfaces.
3. **FINISH:** After one hour, remove the painter's tape. Allow paint to dry for 3 days before use.

Always thoroughly review directions on the package before using any product.
